PROFILE

I am a web developer with an amazing ability to develop websites that are both functional and aesthetically pleasing. I have a strong understanding of web standards and best practices, and I am passionate about creating websites that users will find easy to use and visually appealing. I am also proficient in a variety of programming languages and tools, and I have a proven track record of delivering successful projects on time. I am a team player who is always willing to lend a helping hand, and I am confident in my ability to contribute to any project. I am looking for an opportunity to use my skills and experience to make a positive impact on the web.

PROJECTS

Evangadi Forum   2024

Developed a Q&A platform named Evangadi Forum

- Designed to facilitate programming-related inquiries and responses for Evangadi students.
- Implemented user authentication and authorization functionalities to ensure secure access and participation.
- Created intuitive user interfaces to streamline the posting and viewing of questions and answers.
- Incorporated responsive design principles for optimal accessibility across various devices.
- Utilized relational database management systems to store user information, questions, and answers securely.
- Project focused on enhancing user engagement and fostering a collaborative learning environment within the Evangadi community.

Amazon Clone Full-Stack App

- Developed an Amazon-inspired e-commerce website leveraging Firebase database and authentication services.
- Integrated Stripe payment system to facilitate secure and seamless transactions.
- Ensured responsive design for optimal user experience across various devices.

Netflix Clone

- Developed a Netflix clone using ReactJS with features resembling the popular streaming platform.
- Integrated Movie Database API to fetch movie data, including titles, descriptions, and poster images.
- Implemented React Trailer library to fetch movie trailers from YouTube for an enhanced user experience.

CERTIFICATE

From Evangadi Tech in Full-Stack web development.
